

Genuine Local wants YOU!

Are you looking for a consistent, long-term position?

Looking for opportunities to build your skills and knowledge?

Look no further!

Genuine Local is JUST the spot you're looking for!!

Meet Clarissa- she is one of our valued team members here at Genuine Local. She started with the company in the production facility in the spring of 2017. In the years that followed, she has been able to receive relevant industry training such as ServSafe management, HACCP food safety training, leadership and management training and more. Her positive attitude, ability to adapt quickly, and confidence in her abilities have allowed her to progress quickly within our growing company.

"My time at Genuine Local has taught me a lot," she says. "Initially I took this job for my love of food and all things locally made. I was excited to be a part of the creation of high quality local goods for the companies based right here in our state. Now, I feel that I am truly a part of helping Genuine Local, and myself, grow and succeed as well."

Genuine Local is seeking TWO full time employees to join their growing team. With perks such as flexible hours, 10 paid holidays annually, a small and approachable management team, paid training and plenty of room for growth long term- we want to meet YOU!

Please call 603-279-8600 to inquire about our available positions, or email [mary@genuinelocal.org](mailto:mary@genuinelocal.org) to learn more.

Not familiar with Genuine Local? Here's a bit about us ...

Genuine Local was established in 2015 with a mission to provide access to the right equipment to help emerging food businesses grow and succeed. Over the years, three main categories of customers have emerged and Genuine Local works with them all to optimize their opportunity for growth.

Local Makers are specialty food companies that may just be an idea or an already established enterprise. What they have in common is that they need access to the right equipment to produce their products on a larger scale. Genuine Local offers a shared use kitchen, complete with training, business development support, access to ingredient and packaging vendors and all the moral support you could want!

Farmers with fresh produce love our Value Added Production program! We can help farms with a surplus (planned or a surprise excess) to convert that to shelf stable jarred products (think salsa, relish, soup). This has helped many local farms avoid wasting part of their crop and also helps extend their CSA season by being able to offer items made from their own ingredients earlier or later into the CSA season. These are also great products for expanding their market reach and selling them through their own farm store or other retail outlets. So far, this program has transformed over 30 tons of fruit and vegetables into shelf stable products!

When members of the GL Community start to grow, the first thing they run out of is time to do everything themselves! This is where the small batch co-packing services come in to play. Genuine Local can help create more hours in the day for any of our customers by taking on the actual production activities. This leaves more time for our customers to go out and sell their products and no one sells them better than they do!

Genuine Local is located in Meredith, NH at 5 Winona Road. We are currently operating 5 days per week (M-F) with the occasional Saturday thrown in for good measure.
